Passionate About People

Robust cleaning & infection control across all care & support environments.

Good stocks of PPE as appropriate for each care setting & staff fully trained in their use.

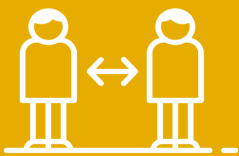

Continuous and ongoing communication and updates for staff. Clinical support leads on hand.

Innovative, safe and fun wellbeing activities arranged and delivered in service settings.

Pre-bookable socially distanced visits and technology enabled communications to keep you in touch.

The assurance of a vigilant, quality led provider with a solid financial base in uncertain times.

“With over 25+ years of experience in providing care for people, Ambient Support recognise that making the transition into care can be unsettling and even more so in these uncertain times.

I wish to reassure you that the safety and wellbeing of those we support is our number one priority. During this COVID 19 pandemic there are new processes and guidelines we are following to ensure this is the case.

Our experienced and knowledgeable staff teams will be on hand to support and guide you throughout.“

Director of Operational Services

MOVING IN DURING THE COVID-19 PANDEMIC

People that come into our care and support services will still be guaranteed that same warm welcome and personalised level of support for which we are renowned.

However due to the risks associated with cross contamination new arrivals may be required to self-isolate (in the service) for 14 days after joining us. Full details of the risk assessment process for each service will be provided by the local management team.

LIVE - THE AMBIENT WAY

At Ambient we believe that everyone is unique and deserves to live a full valued, and meaningful life, regardless of age, health condition or disability.
